Transition Module in Right Hand Position

Radius: 25.0" = Red /Blue

4' JUNCTION CORNER MODULE

Radii:
35.0" = Red
33.5" = Yellow
32.0" = Blue

Male

This is the basic Universal Flexi-Junction. The red line on each side heads four ways: curved to function as the loop red line, straight for the opposite spine red line, curved to the adjacent spine blue line and straight to the parallel spine yellow line.

The yellow line acts as a siding for the red line on the spine.
